

# MOKUPĀPAPA DISCOVERY CENTER

Lecture - Free Event

February 27, 2020  
6:00pm to 7:00pm

Mokupāpapa Discovery Center

76 Kamehameha Avenue, Hilo

## Humpback Whales in Glacier Bay National Park: Navigating Oceans of Change

For the past 30 years, Glacier Bay National Park Wildlife Biologist Christine Gabriele has led the Park's humpback whale population monitoring program in Southeast Alaska. In this slide program, she will share some of her findings, and highlight the importance of long term studies in understanding our changing oceans.
