

Access to Monument for management operations and research  
Approved List of Topics for Letter  
Northwest Hawaiian Islands Coral Reef Ecosystem Reserve Advisory Council  
March 20, 2019

- Importance of having a vessel
- Continuity of research (grants, possible extensions)
- Cascade effects on data, wide implications
- Not making comments exclusive to PMNM, but other Monuments
- Impacts of ocean change throughout the Pacific
- Include projects that will not be done because of lack of access to vessels
- Financial impact of not having a vessel
- Opening of letter be about the importance of the world's oceans
- Marine debris removal
