

Climate Change: In Hawaii and Around the World

Learn about climate change and the environment during a special presentation with:

Chip Fletcher, University of Hawaii Professor and Chair of the Department of Geology and Geophysics

Topic: Climate change, global warming and sea level rise and its effects on a local and global level.

Samuel M. 'Ohukani'ōhi'a Gon III, Ph.D., The Nature Conservancy of Hawai'i Senior Scientist and Cultural Advisor

Topic: Climate Change, from a Hawaiian perspective

Thursday, February 18, 2010
6:00 p.m. - 7:30 p.m.
Waikiki Aquarium: Classroom

The Nana I Ke Kai series of presentations, held throughout the year, feature discussions on climate change, coral conservation, and ocean acidification, among other issues.

Sponsored in part by the National Oceanic & Atmospheric Administration, Pacific Services Center - connecting culture and science.

This presentation is free and open to the public.
